### *Why we need Investors?*

Banks provide business loans and currently interest rate in India is between 14% to 24% for small businesses. So, we need to earn more than this just to breakeven.

If we raise loans too, we need to provide extra 50% secured guarantee to keep with the Banks. We feel it's totally unjustified.

The banking system is always in favor of big business houses.

To provide utmost transparency and Value of money, INSC will be pre-listed to a specific Exchange at the ICO price.

Meaning Promotor will always keep a Buy Trade at 0.00030 ETH for whoever wants to sell.

Token Holders who have invested with us in ICO, if they feel uncomfortable or if they are in need of Money, they can simply Sell and cash out. They won't lose a single penny. It's a promise by the Promoter.

If everything goes well, We will be listing on different Crypto Exchanges where token holders can directly sell their holdings at much higher premium to the exchanges.

We believe Price Discovery will be more than 5x the ICO prices on Exchanges.
